

SOCIALIST MEMBERS EXPELLED FROM THE NEW YORK ASSEMBLY

The Vote Was Taken This Morning
After an all Night Debate, Result-
ing in Big Majority for Expulsion

**Lieut. Col. Roosevelt Op-
posed Unseating Them--
Applause Greeted the
Action of the
Assembly**

(By United Press)
Albany, N. Y., April 1—The five
suspended socialist members of the
New York assembly were expelled to-
day on charges of disloyalty following
an all night debate. An individual
vote of expulsion was taken on each
member.

The five socialists are August
Claessens, Chas. Solomon, Samuel Orr,
Samuel A. Dewitt and Louis Wald-
man.

Lieut. Col. Theodore Roosevelt was
in favor of reseating them. One of the
two women members Mrs. Margaret
Smith spoke in favor of expulsion.
Speaker Thaddeus Sweet also took the
floor to urge ousting of the social-
ists.

The vote on Solomon and Claessens
was 116 to 28, and the vote on Wald-
man 115 to 28. The vote on Dewitt
and Orr was 104 to 40.

After the final vote was taken a flare
of applause spread over the assembly
chamber, and the crowd in the gal-
lery cheered the announcement of the
result. The assembly men, worn
from a night of bitter debate roused
themselves for a final cheering.

The vote came when Speaker
Sweet had completed his address. The
speaker called for a vote on Wald-
man, the first of the men to be bal-
lotted on. A hush fell on the cham-
ber as the clerk started the roll call.
A buzz of conversation started on the
floor of the house and in the gallery
as the roll call proceeded.

The first cheer came when the
speaker declared that the seat of Orr
was vacant and lasted several min-
utes.

Speaker Sweet refused to make any
statement on the result except to
say: "The result will speak for it-
self".

Unless a special session of the leg-
islature is called the governor can
not call a special election to fill the
vacancies created by expelling the
five socialists. The constitution pro-
hibits calling a special election to fill
vacancies in the legislature after
April 1, unless it is an extraordinary
session.

property, pending determination of
the boundary line, between the two
states, was granted by the court.

Put Proposal For War's End Before House

Resolution Would Require Similar
Action by Germany Within
Forty-five Days

Washington, March 31—Peace with
Germany through adoption of a joint
resolution declaring the war at an
end, was put squarely before con-
gress today by republicans in control
of the house.

Framed by republican members of
the foreign affairs committee and
backed by party leaders, the measure
was thrown into the hopper with as
little ceremony as if it had been a
bridge bill, but instantly there de-
veloped a demand for speedy action.
A move to jam it through the house
on Friday took shape, but democrats,
outspoken in their opposition, finally
obtained an agreement to postpone
consideration until Monday.

While trying to work out a resolu-
tion calculated to suit all factions of
their party, republican commit-
tee-men had arranged to call it up on
Friday, remembering that it was on
Good Friday three years ago that
war was declared.

The resolution, introduced by
Chairman Porter of the foreign af-
fairs committee, provides for "termi-
nation of a state of war" as soon as it
becomes effective. It provides also
for reciprocal trading with Germany
under certain restrictions, and for re-
peal for the president's war powers.
Germany would be allowed 45 days
"to notify the president that it has
declared termination of war" and
waived all claims against the United
States "that it would have had the
right to assert had the United States
ratified the treaty of Versailles."

On Germany's failure to send such
notification, trading, or the making of
loans or credits, would be prohibited,
except with the license of the pres-
ident.

HERBERT WALKER,
(United Press Staff Correspondent.)

Washington, April 1—The resolu-
tion declaring a state of peace be-
tween the United States and Germany
was favorably reported by the house
foreign affairs committee today.

Practically no change was made in
the text as introduced by Chairman
Porter of the committee.

The vote ordering a favorable re-
port was 412 to 6 with one member
voting present.

The resolution fixing a date for the
end of the war between United States
and Germany thus sets a time for the
termination of reconstructive war
work.

Chairman Porter will present a
majority report late today or tomor-
row and the resolution will be taken
up in the house Monday. Rep.
Flood, ranking minority member, will
file a dissenting report.

PICKFORD DIVORCE CASE WILL BE INVESTIGATED

(By United Press)

Reno, Nevada, April 1—An investi-
gation into the entire record of the
Mary Pickford divorce case, begun
by Ralph Richard, deputy attorney of
Nevada, was continued today.

The action was begun following a
meeting of the bar association, when
a resolution was passed calling upon
the attorney general to investigate
the divorce proceedings at Minden on
March 2, when after brief hearings
Mary was granted a divorce from
Owen Moore on the grounds of de-
sertion. According to reports here
today, the resolution was later stricken
from the records, and a motion to
appoint a committee to investigate all
short term divorces in the state was
substituted.

Mary Isn't Worried

Los Angeles, April 1—Mary Pick-
ford-Fairbanks isn't worried over re-
ports from Nevada that state officials
are going to probe the proceedings
which resulted in her divorce from
Owen Moore a month ago.

The movie star today denied that
there were any irregularities in the
proceedings.

Reports received here said the pro-
posed probe of the divorce proceed-
ings at Minden is based on allegations
of the collusion between Mary and
Moore.

The period of residence in Nevada
of the principals is also said to be
under investigation. "There is nothing
to it," said Douglas Fairbanks, who
married Mary.

pressed orders of the president of the
United States. Field Marshal Foch
can give no orders to United States
forces which are not first approved
by the president."

into effect today. It was agreed to
by both miners and union represen-

thousand city employees were given
added momentum today with the
announcement that one-fifth of the
city fire department had signed resig-
nations, effective next Wednesday, un-
less they too are granted pay in-

late yesterday in passing a budget
providing for a ten per cent increase
failed to settle the difficulty of the
official family. City clerks, garbage
handlers, food inspectors and other
municipal employees continue today to
picket the city hall. The strike was
declared one hundred per cent effec-
tive and leaders insist there was no
sign of weakening on the part of the
employees.

of city employees, demanding a wage
increase approximately twenty per
cent, was threatened today when sev-

day.

The strike would mean a general
tie-up of city activities and might se-
riously handicap the police and fire de-
partment. Six hundred policemen
and policewomen are expected to re-
sign tomorrow. Firemen are meeting
today to consider a blanket resig-
nation to enforce their demand for an
increase.

heavy receipts more than overcame

to want an increase in wages but de-
clined not to call a strike. They de-
nied rumors that a strike was threat-

COAL SITUATION

Already some coal dealers are advising their customers to order next year's supply of fuel at once.

The time-honored chatter about a coal shortage in the near future is the bugaboo by which the consumer is to be frightened into line again.

All this is getting to be rather old stuff with the consumer and he is getting mighty tired of it. He has been the goat so long that the situation lacks both novelty and terror.

For some years the coal people have handled the situation with a high hand and the public has permitted it.

The quality of coal has steadily declined and the price has steadily risen until now both have reached an intolerable point.

People are not going to stand for this sort of stuff any longer.

There is plenty of coal of good quality to be mined and plenty of miners to mine it if given a fair

wage. There are plenty of railroads and lake boats to haul the coal needed and to get it to the points of distribution in plenty of time to be marketed before next winter.

We have visited several coal mines in the past three months, talked with miners and superintendents of mines and we have gathered some information regarding the manner in which some of the strikes have been engineered and the hap-hazard way in which coal is mined and marketed.

The miners have deliberately "slowed down" on their work until each miner averages little more than a third of what should be his daily average. Instead of using his good right arm the miner is using too much dynamite. The result is a great loss in good coal blown to useless dust.

Little effort is made to remove the slate and dirt and the stuff is shipped off to the consumer who takes it or leaves it.

Right here it might be interesting to note that, around the coal mines, it is very generally understood that there was not only no excuse whatever for the coal strike last fall but that there may have been an understanding between the operators and miners over the matter all the time as another way in which to pass another boost in price along to the consumer.

It is indications of this sort of hellishness which helps to promote anarchy in America.

If the coal is mined and the railroads haul it instead of sending back empties from the vicinity of the mines then the coal will be distributed easily.

If lake boats haul coal up the lakes each trip after unloading cargoes of

grain, instead of returning in ballast, that too will help.

It is simply up to the coal people to deal fairly with the public. They have not done so in the past—unless they show an inclination to do so in the future the people will sooner or later visit upon them the wrath which the public reserves for tricksters, swindlers and knaves.—Anoka Herald.

TO INVESTIGATE GAS PRICES

Investigation of the high price of gasoline is asked in a resolution introduced in the house by Rep. Leonidas C. Dyer, of Missouri, republican. Four increases in the price of gasoline have been made since the middle of January. Rep. Dyer charged, and recent reports indicate that the oil interests are making huge profits. Attorney General Palmer would also be directed to investigate price advances in kerosene fuel oil and other petroleum products to ascertain whether any violation of the anti-trust laws exists. The resolution has been referred to the committee on judiciary for consideration.

BEAUTY SHOW

ARRIVES TODAY

"Jr. Mimic World" Stars and Chorus Beauties of the Big Musical Comedy Show

NUMBER 20 LAUGHING GIRLS

None of Them Seemed Over 16. Some Had Cute Curis Hanging Down Their Backs

It looked as if a beauty show had been started in the station when the chorus beauties and stars from "Jr. Mimic World", the big musical comedy show which opens this evening at the New Park Theatre arrived at the end of the long trip from New York. Twenty fascinating, happy, laughing chorus girls, and five stunning girl principals and stars, with a retinue of male stars, managers, stage carpenters, electricians, etc. to say nothing of the three chaperones who accompany the troupe, piled out of the train to the theatre. Never in all the history had this city seen such beauty, or so much of it in one place.

The main thing which attracted one to the girls was their extreme youth, and their clothes. None of them seem over sixteen, some of them have cute girls hanging down their backs, and all of them look as if they had just been fitted out by a Fifth Avenue tailor. It was an eye opener to the men who saw them arrive, and even the women turned to stare. These little girls are destined to become very popular in this city.

Here's a word of advice to our young men—three chaperones accompany the troupe, and no girl can accept an invitation to a supper, luncheon or auto ride without their consent. So if you want to entertain one of the little darlings, and show them what our hospitality means, first "get next" to Mrs. Fields, Mrs. Smith or Mrs. Morley and "fix it," and it will be all right.

Shows are at 7 and 9 tonight.

IF SKIN BREAKS OUT AND ITCHES APPLY SULPHUR

Just the moment you apply Mentho-Sulphur to an itching, burning or broken out skin, the itching stops and healing begins, says a noted skin specialist. This sulphur preparation, made into a pleasant cold cream, gives such a quick relief, even to very eczema, that nothing has ever been found to take its place.

Because of its germ destroying properties, it quickly subdues the itching, cools the irritation and heals the eczema right up, leaving a clear, smooth skin in place of ugly eruptions, rash, pimples or roughness.

You do not have to wait for improvement. It quickly shows. You can get a little jar of Mentho-Sulphur at any drug store.

HAVE ROSY CHEEKS AND FEEL FRESH AS A DAISY—TRY THIS!

Says glass of hot water with phosphate before breakfast washes out poisons.

To see the tinge of healthy bloom in your face, to see your skin get clearer and clearer, to wake up without a headache, backache, constipation or a nasty breath, in fact, feel your best, day in and day out, try inside-bathing every morning one week.

Before breakfast each day, drink glass of real hot water with a teaspoonful of limestone phosphate in it as harmless means of washing from stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and toxins; thus clearing, sweetening and purifying the entire alimentary canal before putting new food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the fermentations, gases and acids and gives one a splendid appetite for breakfast.

A quarter pound of limestone phosphate will cost very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, sweetens and freshens the skin, so hot water and limestone phosphate act on the blood and internal organs. Those who are subject to constipation, bilious attacks, acid stomach, rheumatic twinges, also those whose skin is sallow and complexion pallid, are assured that one week of inside-bathing will have them both looking and feeling better in every way.

Rescuing the Waste

THE Standard Oil Company (Indiana) renders a vital service by giving multiplications of value to that portion of the crude oil left, after gasoline, kerosene, and lubricating oils have been extracted, through the production of innumerable by-products, each supplying a definite need.

Thus have been developed products such as Parowax, which serve such useful purposes as a protective coating for cheese, meats, and sausages; for match ends; for water-proofing milk bottle caps, ice cream pails, and paper drinking cups; and for sealing preserved vegetables, fruits and jellies against bacteria, ferments and mold.

These are but a few of the uses of one of the more than 2000 products manufactured by the Standard Oil Company (Indiana), covering needful commodities from asphalt to candles.

So vast a program could not be carried out except by a highly specialized organization, developed to maintain numerous contacts with the world of production on one hand, and with the consuming public on the other.

It was the need for such a specialized organization which led to the great development of the Standard Oil Company (Indiana). No single function of this great organization has come into being without a definite call to service.

Today the Standard Oil Company (Indiana) is big only because the need of its service is great; because the ways in which it is able to serve are continually multiplying as the complexities of modern industrial life increase.

TO ASSUME HIS DUTIES SOON

R. D. Stitzel, Present Acting Secretary Polled a Considerable Number of Votes

Neil Swanson of Minneapolis was named permanent secretary of the Chamber of Commerce at Wednesday evening's meeting, the Chamber accepting the recommendation of the advisory board.

The election came after an extended open discussion in which Chamber policy, finances, budget, membership, etc., were exhaustively taken up.

In the final vote Mr. Swanson polled 48 and R. D. Stitzel, present acting secretary, received 34 votes. Mr. Swanson was declared elected and on motion, carried, received the unanimous endorsement.

The salary is to be \$2500 a year with the secretary devoting his entire time to Brainerd Chamber of Commerce affairs.

Notice was received of the raise in rental of Chamber of Commerce rooms from \$6.66 per month or \$800 per year to \$75 a month or \$900 a year.

The attendance at the special meeting was one of the largest recorded this year and demonstrated the interest taken in the selection of a secretary. The report of the advisory board concerned itself entirely with the man favored by them and his recommendations, and the vote as given Mr. Stitzel must be considered as an independent recognition of his ability.

ELKS IN A BODY TO ATTEND SHOW

An exclusive feature has been added to the Elks entertainment tonight which will go down in Elks history as one of the greatest ever featured by any lodge.

At 11 o'clock this evening, after the initiatory work, the entire lodge, Elks members, Elks visitors and Elks candidates, will march in a body from the Citizens State bank hall to the New Park theatre and there attend a special performance of "The Mimic World", a complete production of which will be given.

All the actors of "The Mimic World" are Elks and it is largely through the whole-hearted spirit of Elksdom which prevails wherever Elks gather, that this additional attraction has been made possible through the cooperation of Messrs. F. S. Workman and Clyde E. Parker and company and lodge.

The boxing match will be held on the opera house stage after the production of "The Mimic World". When this is concluded, the Elks assemblage will march back to the Citizens State bank hall in a body and continue there the social session.

It must be remembered that this 11 o'clock show of "The Mimic World" is exclusively for Elks. The general public will attend the 7 and 9 o'clock performances.

M. E. Church

There will be services both Thursday and Friday evenings, beginning at 8 o'clock. This Thursday evening the subject will be, "Thursday the Day of Fellowship." Friday evening will be "The Crucifixion." The public is cordially invited.—E. A. Cooke, minister.

POTATO EXCHANGE HEAD IN THE CITY

Ludvig Mosback of Ansovc in Conference With D. D. Schrader on Potato Matters

33 LOCALS HAVE JOINED SO FAR

Mr. Mosback on His Way to Pine River to Take Up Three More Applications

Ludvig Mosback of Ansovc, president of the Minnesota Potato Growers Exchange, was in the city today on his way from Minneapolis to Pine River and conferred with D. D. Schrader.

He said 33 local cooperative associations were now affiliated with the state exchange and that he was on his way to make appointments with three others that wished to join this week.

He is being received with a great deal of enthusiasm wherever he has met with potato growers. No definite decision has yet been arrived at by the directors of the Minnesota Potato Exchange as to which town is to be headquarters.

Mr. Schrader feels confident that Brainerd will ultimately be selected as headquarters. Mr. Schrader is planning to have W. H. Gemmell, general manager of the Minnesota & International railway, add Mr. Mosback to the "Potato Special" train which covers points from Brainerd up the M. & I.

AMPHION MALE CHORUS

Minnesota College Singers Give Splendid Concert Tuesday Evening

The Amphion male chorus of the Minnesota College of Minneapolis, a Lutheran organization, assisted by Miss Ruth Pehrson, violinist, Miss Hildur Linner, reader, and Carl Olson, tenor soloist, gave a most satisfactory concert Tuesday evening at the Clara Lutheran church.

The ensemble work of the chorus was noteworthy indeed. The members are all young and many have had no voice training except that which they have received in chorus work under their capable director, Prof. F. E. Peterson, but still voices blended most harmoniously. Especially was fine work shown in the concluding number by the chorus, an arrangement by Prof. Peterson of "The Palmers" by Faure.

Miss Pehrson's violin numbers were exceptional. Rarely is so young a violinist found who can play with such beautiful expression and produce such full, sweet tones as Miss Pehrson did. Her technique was remarkable so that her scale passages were smooth and musical.

Miss Linner exhibited skill and finish in her selected readings. Her voice is clear and resonant which points were most noticeable in her selection entitled "Carry On!" Because of her speaking ability and charming personality, she won the fervent admiration of everyone.

Mr. Olson has a melodious tenor voice of extraordinary range. His interpretation of "Fear Not Ye, O Israel" by Dudley Buck, was probably the most wonderful of his several fine numbers.

Considered as a whole, the program was one of which the Minnesota College may well be proud. Friends hope to soon hear these talented people in Brainerd again.

IF KIDNEYS ACT BAD TAKE SALTS

Says Backache is a sign you have been eating too much meat, which forms uric acid.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and lazy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizzy spells, your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scales and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then set free. This famous salt is made from the acid of grapes and lemon juice, combined with alkalis, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent, light water drink.

Admiral Fullman Testifies as to Navy's Unpreparedness

Washington, April 1—As a result of the navy's policy of "indifference," it was not prepared "in any respect" when war was declared, Rear Admiral Fullman, retired, declared in the senate naval inquiry today. "Disaster was avoided" only because the German and Austrian fleets were bottled up and because the chief naval powers were on the allies side, he said. Fullman commanded the Pacific reserve fleet during the war.

Fighting Hunger

Hunger is never more than a few days away from the American people.

The coal strike showed us what a narrow margin the country goes on, even in a non-perishable necessity which can be stored.

Swift & Company is engaged in the business of fighting hunger.

From coast to coast, from the Great Lakes to the Gulf, the lines of defense are drawn—packing plants at strategic points; branch houses in four hundred towns and cities; hundreds of car routes; thousands of refrigerator cars; tens of thousands of loyal men and women expert in their work.

Day by day, hour by hour ceaselessly, this fight, your fight, goes on. Yet so smoothly, surely and victoriously that you, unaware how close hunger always is, are as certain each night of tomorrow's meat as you are of tomorrow's sun.

And so economically is this done that the cost to you for this service is less than three cents a pound of meat sold. The profits shared in by more than 30,000 shareholders whose money makes the victory possible is only a fraction of a cent a pound on all products.

If hunger did not make it necessary for us to fight this fight in the best possible way for all concerned, the competition of hundreds of other packers, large and small, would compel us.
